

Jeff's Idea of a Recipe

(To accompany pepperoni rolls—or anything else)

One bottle of Bass Ale, chilled to 44 degrees Fahrenheit

One can of Guinness, also chilled to 44 degrees F.

One frosted 16-ounce glass

Open the bottle of Bass Ale; tilt the frosted glass to about 45 degrees, and slowly pour in the Bass Ale until it reaches approximately 50 percent. Then open the Guinness and with the glass still at maximum tilt, slowly fill to the top. Enjoy!
